Tuesday 12-12-06

The club meeting was held as usual at the Pizza Place in Sebree, we had 16 members present, the main topic was the up coming New Years day snow bird fly in but by the time you get the newsletter it will be history so I'll just have to keep you informed in the next newsletter. Also all nominations for officers were made and the incumbents were nominated, if you want to voice your choice you have one more chance in the January meeting if not you have no one to blame but your self's.

The gift certificate from Henderson Hobbies was one by Larry Barnes. Mike Morton has informed us that the Joe Bayer swap meet was a success, and we are glad to hear that.

Tina and Z and Keith went to the Piggott Ark Christmas party and then to Sikeston for the chili fly in and they said they had a great time except for being very cold.

Wednesday 12-13-06

Man what a great day to be in Kentucky, the weather was great and it was so good to see so many out enjoying the sunshine and very mild temps., you just can't ask any more for the middle of Dec. (Well I would have liked it to be around 70 or better, but whose complaining)

Here are a few of us enjoying it.

Saturday 12-16-06

There were just four of us out today, guess Christmas shopping was more important, but Larry Barnes and Scott Miller, Harold and I were the only ones out flying, Irish came by on his bike and stayed a while, but it does not take long to get cold so around 4 we all packed up and headed for the house, Here is Larry holding Scott's plane.

Sunday 12-17-06

Man what a great day, sunny and warm just a hint of wind and lots of people out flying, today is better than yesterday but it is not going to last, I can see the clouds moving in already.

We had around a dozen pilots out today and we have a new member, his name Jeff Lynn and he is from Hopkinsville, he and his family were out flying today, he is kinda rusty as he has not flown in 5 or 6 years, but he is getting pretty quick, his family was also on hand to cheer for him, if you see him out there welcome him.

Saturday 12-23-06

Very cool day, just the three of us out today, Tina, Harold and I came out and installed a new frequency board and flew a bit, took some thing out of possum lodge to make ready for the snow bird fly in on the first, we need to clean it up a bit, mice are going to have to find a new home.

1-1-07 New Years day

We had a very good crowd out for our annual snow bird fly in, lots of food and of course lots of flying. Did I mention it was very cold, well it was very cold!

We did miss a few people who we always expect but they probably had

other things to do. Here are a few pictures of the flight line.

If you missed it, well there is always next year!

Don't forget the meeting, first for the year 07, next Tuesday, 1-9-07.

Wednesday 1-3-07

Very nice day for flying, cool but the sun was shinning. We had about half a dozen out today and a couple of visitors from Jasper In, Bill and Darrel and Larry and Tina and Harold, Doug and I.

Well that's about all for this month and year, see you at the meeting, we need as many as possible out so we can vote on club officers, if you don't vote you will be stuck with the same people!
