I have been gone for two weeks to Puerto Rico to visit my dad and we had a great time, I did not attend the meeting or the two fly ins that were going on, one at Browns and one at our field so here is a report from Tina.

Browns had a great turnout with about 35 pilots for the three-day event. Members of our club participating were Keith Benton with the Ultra light, Tom Tom flew his katana & zoom zoom,

Tina & Jim were there with Tina's yak, Joe & Steve Bayer were there with their family flying everything from the big Patty Wag staff Extra to small electric aircraft and heli's. Larry and Scott with the extra 300 L's came up on Sunday to wow the crowd. Jack Mathis was there with the jet. Tom Boulnois and Eddie Hicks came over from Sikeston to enjoy the fun, the food was great and flying was wonderful

Electric fly
Our club's first electric fly-in had 22 registered pilots the largest electric was about 6 lbs from the Evansville club and the smallest was

Tina's Slow stick that was 4.5 oz. Tom Boulnois and his lovely wife Marion and twin sister Sharon drove over from Sikeston Mo. to cook catfish for lunch & Mike Carrier had his grill fired up with hamburgers and dogs.

Cindy (Butch's Cindy) made more desserts than all those big old boys could eat, the weather was beautiful and we missed everyone

that didn't come visit.

Our fly-in was the last thing Pam and Gordon did before going to visit her mother in New Mexico, and it will be Sept before we see them again.

Thanks to everyone who participated and supported and helped in any way with our first electric fly-in.

Saturday 6-23-07

Harold and JT and his daughter Cheyenne and I were the only ones out today, seems we are less and less every day, oh well that's the way it goes. Harold and I flew our Pro-trainers and JT flew his Sukoi, we had fun till the rains came, hard rain with wind and hail, we hid in the possum lodge till it was over but the field was pretty much under water so we left.

Sunday 6-24-07

I got there around 1:30 and waited for someone else to show, no one came so I waxed my truck and cleaned the Inside, I finally called Harold to see if he was coming out and he said it was raining down at his house and he figured it was at the field also but it was sunny and dry at Roberts, so he came out and then JT and his wife, kids and grandkids and we had a grand oh time, but again we were the only flyers there, we finally went to the house.

Wednesday 6-26-07

Very warm and humid today, but we had 10 or so pilot's out, Keith Rankin and Otis Clark came flew with us, Otis flew his Impulse and Keith flew his Prime cut, Tina and Harold Doug and

pickle flew their Zoom Zoom's and Bill Robertson and Mike Stone and I flew our pro trainers, Big All came out and flew his beautiful, Doug and pickle had a mid air, Doug said pickle run over him and pickle said Doug turned right in front of him, Doug's plane was totaled and pickle had a chipped prop, Irish came out but he did not stay long, if you get a chance to see him congratulate him he is a brand new grandfather.

**HEY BIG BOY
WAIT FOR ME.**

Hanson 4th of July fly in. It was held this weekend June 30.

We went down to Hanson for the annual 4th of July picnic and fly in and we had a great time, Harold Tina and Tom Sheffer and his wife Vicky were there as well as Irish and I, and also pickle and his wife, Randy Peckenpaugh also came down. We had a great feast and flew a bit, somebody put up a ribbon and we flew limbo, I flew my Cub under it twice but clipped a pole on my third attempt and broke a piece of the wing, but it is all fixed now, well I need to sand it down and cover it. When I left they were still going strong. I heard that pickle cut his ponytail and Bobby likes him now, (I'm just reporting what I heard). Also I heard that Bill crashed his pro trainer?

Wednesday 7-05-07

We had a good group out today, around a dozen or so.

Tina flew her zoom zoom into the corn field, snapped all the way in, that's what I like about her, she don't give up on it. James Turk came over from Sikeston to witness it and he also flew one.

Harold took out Tina and Doug in a slow electric combat. Darrel flew his Lanceair and looked good with it. Randy and Otis Clark and Keith Rankin showed up but did not fly, I had my cub out, yes it is all fixed. JT Clark showed up late and then I left for a 4th of July barbecue and they were still going strong as I watched out my rear window.

Well the month is over and that's all I have for now, so see you at the meeting, Tuesday at 7, same Pizza Place.

I need everyone to send me an E-mail, (if you have it). Specifically I need to confirm

your contact phone number, (the one you would want me to call if I needed to get in touch with you). By sending me an E-mail; I will be able to confirm your address.
