Tuesday 8-14-07

The monthly club meeting was held as usual at the Pizza Place in Sebree, we had 12 members present and DJ Benton.

The main topic was the fly in coming up in a bit, in fact this month, September 22 and 23. We have made plans and Mike Carrier and Tom Boulnois will cook, so the only thing we have to worry about is the rest of the stuff ☺.

If everybody pitches in like we have always done it wont be a problem.

They will come and we will do our best to accommodate them, that's all we can do.

The landing fee will be \$20.00 and the first 100 pilots will get a free hat, there will be a raffle like before and also pilot awards every chance we get.

The Wednesday before the fly in we will have a get together at the field to see what needs to be done, all that can attend please do so.

There will be concessions and we will feed them.

The gift certificate was awarded to Connie Morton.

I did not fly on Wednesday so I can't tell you anything and also Saturday and Sunday were a no show for me, had prior commitments, sorry!

8-22-07 Wednesday

Tina and Doug, Harold and I and latter Darrell and Bill were out today, Doug and Tina and Harold flew their Zoom Zooms and Doug had a emergency landing out in the corn field, Tina bless her went to the corn twice, and for anybody, in this heat once would have been enough, but she did find it and they flew again.

I flew my profile twice and Darrell flew his Ultimate biplane, Bill just came to visit and did not fly. I left because I had chores to do.

8-29-07 Wednesday

Harold and Tina and Doug and I were out today, Tina flew a new zoom zoom and Harold and Doug flew theirs, I flew my profile. Harold had a mishap and crashed in the corn but he got it back with minor damage.

Sloughfy came out to visit but did not stay long and Larry also came out for a while, he said he got his engine back from the manufacture and was going to go home and get his plane ready for Saturday.

I went to the house right after that and the rain met me half way home, it did not rain long but it was a needed shower.

Monday 9-3-07

Labor day, the last day of summer, not really but that's what they say.

We had 10 or 11 out today that is

really good.

Harold and Tina Jeff Lyman and his girls, Mike Morton and Darrell, Larry and Mr. Miller and Bob Freils, Randy and I. Larry had some guest out for the day and we had a good time, first time I have seen such a group out there.

It is getting closer to the fly in and people are getting excited, port a potties have been ordered and refrigerators are on the way, and maybe just maybe the corn will have been picked by then, it's ready the ears are falling off, just keep your fingers crossed.

All that can attend the next meeting need to be there, we need as much participation as we can, I think Larry and Mr. Miller are going to be the main attractions this year with their 330 L's and hopefully we will get more to show up.

The meeting will be on Tuesday 9-11-07 see you there.

9-05-07 Wednesday

7 of us out today, Tina and Harold, Doug and Pickle, Randy and I and David Sloughfy and Keith Benton came out to watch.

Tina flew her Yak and it is a very impressive plane, they all flew their zoom zoom's and I flew my core delta and my profile, when I left they were still flying.

Well that is all for this month, try and make the meeting as this will be the last one before the fly in, we need all the help we can muster and all help will be appreciated.

I need everyone to send me an E-mail, (if you have it). Specifically I need to confirm your contact phone number, (the one you would want me to call if I needed to get in touch with you). By sending me an E-mail; I will be able to confirm your address.
